

Ensuring Full Literacy

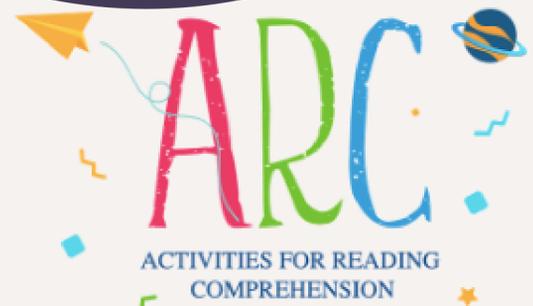

NEW **FREE** tool to help preschoolers on the autism spectrum practice reading comprehension skills

6 - 20% of preschoolers on the autism spectrum have a **strength in word reading** but struggle with understanding the meaning of the text.

Hyperlexia

How can we help?

Activities for Reading Comprehension (ARC) is a free, adult-supported, & research-informed tool to help hyperlexic preschoolers on the autism spectrum with reading comprehension and listening comprehension skills.

Research has shown that using ARC for **early intervention** can help in as little as 6 weeks!

How to play?

Match text with corresponding pictures

Progress from words to sentences

Practice 15-minutes daily with feedback

Customize your own text-picture pairs

Where to play?

At school

At home

In the community
